

Faculty Profile Large-Text Manual

A large-print visual guide for faculty members to open the internal registry and update the public faculty page.

profile photo

research

academic links

1

What updates

Your public profile uses your saved information.

2

Where to edit

Open admin.html, choose Faculty, then edit your profile card.

How to Get to the Admin Page

DIRECT URL

<https://thebeatzzz.github.io/sut-physics-facilities/admin.html>

Sign In and Choose Faculty

4

Sign in

Use the faculty account and password provided for registry access.

5

Choose Faculty

In the left sidebar, click Faculty to find your profile card.

A

Website link

Both the public overview page and the faculty page include an Open internal registry link in the notice bar.

B

After sign-in

Use View public infographic when you want to inspect the visitor-facing pages.

Profile Basics

1

Identity

Add your full name, title or role, email, office, phone, and owner login email.

2

Show public

Keep Show on public faculty page checked when the profile is ready for public visitors.

PLAIN-LANGUAGE TIP

Write for students, collaborators, and visitors. Replace placeholder text before asking people to use the profile.

Profile Picture

1

Upload a portrait

Choose a clear profile picture. The image appears on the public faculty directory and profile page.

2

Describe the image

Add a short profile picture description so the page remains accessible.

TIP

Good photo style

Use a bright, recognizable portrait with enough space around the face. Avoid tiny, dark, or heavily cropped images.

Short Biography

1

What to write

Use one short paragraph about your research themes, methods, students, collaborations, or program role.

2

What to avoid

Avoid only listing keywords. Explain what your research investigates or enables.

EXAMPLE STRUCTURE

I study [topic] using [methods] to understand or develop [application]. My group works with [students, partners, or facilities].

Research Interests and Highlights

1

Research interests

Enter one item per line. Use core areas, methods, materials, models, or applications.

2

Highlights

List major projects, platforms, publication themes, datasets, facilities, or public research outcomes.

GOOD LIST STYLE

Use one idea per line. Keep each line specific enough to be meaningful, but short enough to scan.

Activities and Recognitions

3

Activities

Add teaching, student supervision, seminars, outreach, collaborations, services, or current academic roles.

4

Recognitions

Add awards, appointments, grants, society roles, editorial roles, invited talks, or other recognitions.

OK

Before saving

Remove placeholder lines such as Research interests to update or Recognition to update.

Academic Profile Links

Paste the full https:// link for any profile you want visitors to open.

Academic profile

Paste the matching full link into this field.

Scopus

Paste the matching full link into this field.

ResearchGate

Paste the matching full link into this field.

Google Scholar

Paste the matching full link into this field.

ORCID

Paste the matching full link into this field.

Associated Facilities

1

Choose facilities

Select the facilities that should appear on your public faculty profile.

2

Why it matters

Facility associations connect your research profile to shared laboratories and public equipment records.

+

If a facility is missing

Ask the registry manager to add or update the facility first. Then return to your profile and select it.

Save, Check, and Refresh

OK Before you finish

Check photo, links, facilities, and placeholder text.

PUBLIC-PAGE RESULT

Updated faculty information replaces fallback placeholder content on the public faculty page.
